

MM-1 Computer Speakers from Bowers & Wilkins

From user to listener

MM-1s aren't like other computer speakers. They're true hi-fi speakers, shrunk to fit on your desktop. So they don't just look great – they sound amazing, transforming your computer into a superb hi-fi stereo sound system. But then you'd expect nothing less from the makers of the award-winning Zeppelin iPod speaker, not to mention some of the most advanced studio speakers in the world.

Specifications
